

Introducing PocketPills

The ongoing pandemic has inspired us to consider additional virtual services we can make available to Chambers Plan members.

PocketPills is a proudly Canadian online pharmacy and technology company that provides free home delivery for prescription medications – often by the next business day. They also offer direct access to their team of pharmacists by text, live chat, phone or email. And their app allows individuals to manage not only their own prescription needs, but also those of family members.

We are very pleased to make the PocketPills service available to all Chambers Plan members with prescription drug coverage* **effective June 1, 2021**.

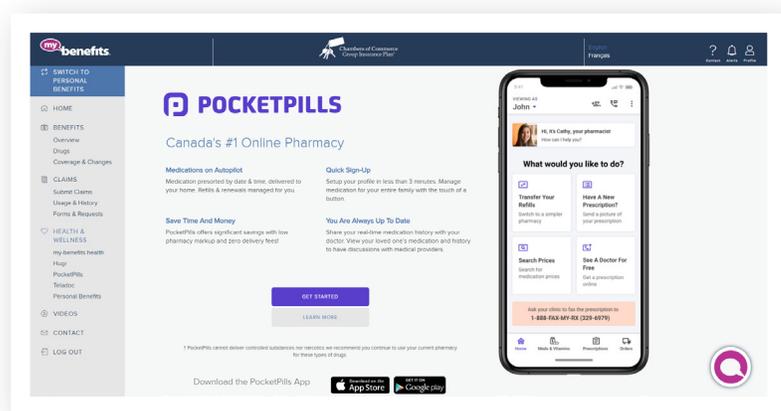

As a not-for-profit, Chambers Plan surpluses are always returned to the Plan's bottom line, contributing to its overall rate stability. PocketPills' model provides savings to the Plan, which means additional savings we can share with Plan members through an **extra 10% drug coinsurance coverage*** on prescription drugs filled through PocketPills. For example, if your plan has an Extended Health option with 80% coverage for prescription drugs, Plan members will be covered at 90%, rather than 80%, when filled through PocketPills. Please note, drugs that are not covered under Chambers Plan will remain as such.

Effective June 1, 2021, Plan members will have access to this convenient service through a direct link within **my-benefits**®. If they have not already done so, please encourage your employees to sign up for *my-benefits* today! Plan members will also be able to register through <https://www.pocketpills.com/chambers> or by downloading the PocketPills app from the App Store or Google Play.

In the coming days, you will receive an invitation to a live webinar featuring PocketPills. We hope you will join us to learn more about this unique addition to your plan's design. As you will hear, their goal is not to replace, but to complement, traditional pharmacies, with a focus on mobile technology and service.

A promotional piece to help you spread the word to your employees has also been added to *my-benefits* for Plan Administrators. Under *Forms & Documents*, click on *Plan/Coverage Forms*, then go to *Administrative/General*.

We hope you and your employees enjoy this added service, in keeping with our continued efforts to provide comprehensive, meaningful employee benefits to Canadian businesses!

**Due to provincial legislation, members in Quebec can benefit from the PocketPills service as well as the convenience of home delivery for their prescriptions, however the additional 10% of coinsurance cannot be applied. Also, the additional coinsurance does not apply to plans that already provide 100% drug coverage.*
